**FOR IMMEDIATE RELEASE**

**Sedgwick County Emergency Management**  
**Offers Tornado/Severe Weather Spotting Classes**

(Sedgwick County, Kansas) -- Spring is fast approaching and with it comes tornado season. While tornados can happen any time during the year, peak tornado occurrence is in March through May. Sedgwick County Emergency Management will be offering Tornado/Severe Weather Spotter Classes at various locations throughout the county beginning in March (see attached list of class locations and times).

"It is important for every citizen to be prepared in case of a tornado or severe storm," said Sedgwick County Commission Chairman Tom Winters. "The more people that are trained to spot these storms, the better chance we have to protect ourselves and our families."

If you would like additional information about preparing for any type of emergency, contact Sedgwick County Emergency Management at 383-7546 or visit the Sedgwick County website at [www.sedgwickcounty.gov](http://www.sedgwickcounty.gov). (Ready to Respond information).
